SUMMARY

Full Stack Developer with hands-on experience building production-ready business websites and web applications from frontend to backend using Next.js, React.js, Node.js, Express.js, JavaScript, TypeScript, Tailwind CSS, MySQL, Supabase, and MongoDB. Experienced in developing scalable REST APIs, implementing JWT authentication, building admin dashboards, and deploying applications on Vercel and Render. Built multiple real-world projects including a full-stack e-commerce platform, an employee management system, and SEO-optimized corporate websites. Passionate about writing clean, maintainable code and delivering responsive, high-performance web applications.

WORK EXPERIENCE

Web Developer Intern

CSoft Technology, Ahmedabad

July 2022 – April 2023

- Developed responsive web pages using HTML, CSS, and JavaScript
- Assisted in debugging and fixing UI-related issues
- Collaborated with team members on front-end development tasks
- Improved user experience by optimizing page responsiveness

Mindlink Research Academy, Ahmedabad

Feb 2026 – April 2026

- Developed URBNX e-commerce website using React, TypeScript, and Tailwind CSS
- Integrated backend services using Supabase for authentication and database management
- Implemented features like product listing, cart system, and user account functionality
- Designed responsive and modern UI for improved user experience
- Worked on optimizing performance and debugging frontend issues

Full Stack Developer Intern

Digiva Inc., Satellite, Ahmedabad

June 2026 – Present

- Developing full-stack web applications using Next.js, React, Node.js, Express.js, and Tailwind CSS
- Building scalable REST APIs and integrating SQL databases
- Implementing JWT Authentication with secure HTTP-only cookies
- Working on production-level business websites and enterprise web applications
- Deploying frontend and backend applications using Vercel and Render
- Collaborating with senior developers using Git and GitHub
- Optimizing application performance, responsiveness, and SEO
- Working with modern UI libraries including shadcn/ui and Framer Motion

PROJECTS

URBNX – E-commerce Website

Tech Stack: React.js, TypeScript, Tailwind CSS, Supabase

- Developed a full-stack clothing e-commerce platform with secure authentication, product catalog, shopping cart, and order management.
- Built a complete My Account module featuring profile management, order history, and password management.
- Developed an admin dashboard for managing products and customer orders.
- Integrated Supabase Authentication and database services for secure user management and real-time data operations.
- Designed a modern, fully responsive user interface using Tailwind CSS.

WorkForce Hub

- Developed a full-stack Employee Management System using Next.js, Express.js, TiDB, and Tailwind CSS
- Implemented secure JWT Authentication with HTTP-only cookies
- Built employee, department, and role management modules
- Added Excel Import & Export functionality
- Developed REST APIs with pagination, search, and filtering
- Integrated email notifications using Resend
- Deployed frontend on Vercel and backend on Render

Enclave Export Import

- Designed and developed a professional export-import business website
- Built responsive layouts with Next.js and Tailwind CSS
- Implemented SEO-friendly pages and reusable UI components
- Optimized website performance and user experience

Surya Impex

- Developed a modern SEO-optimized corporate website using Next.js
- Built responsive UI with smooth animations using Framer Motion
- Implemented reusable components and optimized page performance
- Configured deployment on Vercel

EDUCATION

Bachelor of Computer Application
